

**Order by 9 a.m., Complete by 4 p.m.
for Every Stock Door and Frame;
Next-Day Delivery throughout Southern California**

The Door Components fleet of delivery trucks keeps expanding. We now have five company trucks delivering both custom and stock products throughout Riverside, Orange, Los Angeles, San Diego and San Bernardino counties.

If you place an order any business day by 9 a.m. you can pick up your stock door or frame at 4 p.m. the same day at our Fontana manufacturing plant at the will call center.

If you prefer your doors and frames delivered, we will deliver it to your designated Southern California location the next day. All of our trucks are driven by Door Components employees who recognize the importance of exceptional service and on-time delivery.

Because of the rapid availability of any stock order, you can save cash by using the Door Components StockPlus™ program instead of warehousing an inventory of stock doors and frames. No need to keep products on hand “just in case” when we can deliver the next business day.

In addition, we have trusted delivery vendors who can deliver throughout the United States within just a few days.

The Door Components website has additional information of our stock doors and frames.
